

PROGETTO DI RESTAURO E RECUPERO FUNZIONALE DELLA FONTANA DELCROIX IN LOCALITA' SALTINO

PROGETTO ESECUTIVO

An architectural rendering of a stone fountain. The fountain features a central basin with a decorative, ornate spout. The basin is flanked by two smaller, carved stone elements. The entire structure is set within a stone wall with a textured, yellowish-brown surface. The fountain is surrounded by a low stone base and a metal railing in the background. The rendering is presented in a faded, artistic style.
