

# PLANIMETRIA GENERALE

# FABBRICATO

# Via Provinciale

A technical line drawing of a structural frame, likely a wall panel. The frame is composed of vertical columns and horizontal beams. A horizontal dimension line at the top is labeled "13.00". A vertical dimension line on the right is labeled "4". The frame features multiple vertical columns and horizontal beams, with some columns having brackets or supports. The drawing is in black and white with some green highlights for the dimension lines.

## Assonometria

A technical line drawing of a cable tray system. The tray is a rectangular metal structure with a grid of horizontal and vertical beams. A series of curved, U-shaped metal supports are attached to the underside of the tray, allowing cables to be run along its length. Red lines are drawn across the image to indicate a 45-degree angle, likely representing the pitch or slope of the tray. A red arrow points to one of the tray's feet, indicating its height or stability.

Platea in Cls

## Vista Frontale

A line drawing of a car positioned inside a large, curved crash test chamber. The chamber has a green horizontal beam at the top right. A red horizontal bar at the bottom is labeled "Platea in Cls". A green bracket on the left side of the chamber indicates a height of "+ 0.50". The number "2." is in the top right corner.

## Vista Laterale

## LEGENDA

A rectangle is divided into four triangles by two diagonal lines. The top-left triangle is shaded with diagonal lines.
